IVAN MOLOCHIY

SENIOR SOFTWARE ENGINEER

molochiy.ivan@gmail.com

Profile

I have more than 14 years of commertial experience in architectural design, development and maintaining microservices, web applications, REST API's and background services using (but not limited to) Golang and Java

Skills

Hard Skills

Golang
Java/Spring
Javascript
RDBMS NoSQL
Docker Kubernetes
Git Mercurial etc
Linux, OS X, Windows
Architectural design

Soft skills

High emotional intelligence
Flexible
Decision Making
Responsible
Social
Self-learner
Quick on the uptake

Project Direction

Proven ability to design, develop, fix and unit test a wide variety of projects in different domains

Experience

Kyivstar / Kyivstar Tech
Senior Golang Developer

2020-now

Kyivstar Open Telecom
Architectural design, feature planning and development, support and maintanance of developer portal and API gateway for telecom platform
Planning and prioritizing project tasks and features
Identification and mitigation of potential risks or roadblocks
Providing technical guidance and mentorship to engineers
Conducting code reviews and setting coding standards and best practices

Contractor
Senior Golang Developer

2019-2020

Teaching strategies
Feature development and bugfix of teaching process management solution
Developed and supported features for planning studies and learning process

Edvantis
Senior Golang Developer

2017 – 2018

Drilling info
Involved in Natural resources management app development
Fixed and improved authentication and client entitlement services after Red Hat SSO migration
Developed features for managing client assets

Lohika
Java developer

2013-2017

Trane
Responsible for development of energy management system
Implemented metrics calculation related to utilities (electricity, gas, water etc.) like regional rollup, usage prediction, budget projection etc.
Implemented alerting system and meter data filtering and interpolation
Fixed countless issues in background services and web application

Tidemark
Development and bug fixing of enterprise performance management software
Implemented user task scheduling services. Fixed thread pooling issues

N-IX

Java Developer   2011-2013

OpenText

Designed and developed mobile client build management app from scratch
Lead junior members of the team
Developed HTTP resolve server for applications requested by client and administration UI application for it
Reverse-engineered and bug fixed legacy application for build management
Implemented and optimized fallback HTTP server for proprietary binary protocol

GlobalLogic

Java Developer   2010-2011

WDS

Implemented various background services and web application for phone showcase and retail

WeComm

Implemented data providing backend and integrated with user interface built with proprietary software
Implemented certificate management portal for mobile client rebranding application

Nice Systems

Developed the extension for video streaming server
Fixed threading/socket/JNI video publishing issues
Optimized performance of live streaming video publishing, integrated with video encoding software service

Education

Ivan Franko National University of Lviv

Master of Applied Mathematics and Informatics

Personal activities

Songwriting	Festivals	Camping
Sound engineering	Gym	Reading
Playing guitar/bass	Gaming	Electronic engineering
